Equivalency Certificate (Approval issued by the competent authority of Canada)

Certificate No.: SU 11512 (Ren. 6)
Certificate Type: N/A
Certificate Holder: SodaStream Canada Ltd.
Mode of Transport: Road, Rail, Marine
Effective Date: May 14, 2021
Expiry Date: June 30, 2023

LEGEND

For the purposes of this equivalency certificate, documents referred to by an abbreviation have the following meaning:

TDG Act: *Transportation of Dangerous Goods Act, 1992*

TDG Regulations: *Transportation of Dangerous Goods Regulations*

NOTES

Note 1: Subsection 31(4) of the *TDG Act* stipulates that any non-compliance with the conditions of this equivalency certificate will result in the provisions of the *TDG Act* and *TDG Regulations* to apply as though this equivalency certificate did not exist.

Note 2: This equivalency certificate provides no regulatory relief other than specifically stated herein. Therefore, all other requirements of the *TDG Act* and the *TDG Regulations* apply.

PURPOSE

This equivalency certificate authorizes the certificate holder to handle, offer for transport or transport dangerous goods that are:

- UN1013, CARBON DIOXIDE, Class 2.2,

in a manner that does not comply with:

- paragraph 3.5(1)(d) of the *TDG Regulations* and
- Part 6 (Training) of the *TDG Regulations*,

when the used cylinders are being transported from the consumer or retailer to a SodaStream Canada Ltd. facility or from a SodaStream Canada Ltd. facility to a SodaStream USA Refill facility for recycling, recall, replacement or disposal.

Through a quality assurance process and procedures containing sufficient information and detailed instructions for the consumer or retailer to be able to handle and offer for transport the used cylinders, the certificate holder assumes all of the shipper's duties and responsibilities related to the return of the used cylinders, and ensures that the dangerous goods are handled, offered for transport, and transported in compliance with the conditions of this equivalency certificate and the applicable sections of the *TDG Regulations*.

CONDITIONS

This equivalency certificate authorizes **SodaStream Canada Ltd.**, to handle, offer for transport or transport, and authorizes **any person** to handle or transport on behalf of the certificate holder, by road or railway vehicle, or by vessel on a domestic voyage, dangerous goods that are:

- UN1013, CARBON DIOXIDE, Class 2.2,

in a manner that does not comply with:

- paragraph 3.5(1)(d) of the *TDG Regulations* and
- Part 6 (Training) of the *TDG Regulations*,

if the following conditions are met:

1) General

- a) The dangerous goods are transported from the consumer or retailer to a **SodaStream Canada Ltd.** facility or from a **SodaStream Canada Ltd.** facility to a **SodaStream USA Refill** facility for recycling, recall, replacement or disposal;
- b) **SodaStream Canada Ltd.**, provides the consumer or retailer with processes and procedures containing sufficient information and detailed instructions for the consumer or retailer to be able to handle and offer for transport the used cylinders;
- c) **SodaStream Canada Ltd.**, provides the consumer or retailer with a packaging kit that includes a high quality fiberboard overpack, complete with pre-printed dangerous goods safety marks and a dangerous goods shipping document, as well as detailed instructions and support for the consumer or retailer to pack the cylinders into the fiberboard overpack;
- d) The consumer or retailer complies with the closure instructions pre-printed on the overpack;
- e) **SodaStream Canada Ltd.**, assumes all of the shipper's duties and responsibilities related to the return of the used cylinders and ensures that the dangerous goods are handled, offered for transport or transported in compliance with the conditions of this equivalency certificate and the applicable sections of the *TDG Regulations*;
- f) **SodaStream Canada Ltd.**, has a documented quality assurance (QA) process in place to constantly monitor compliance with the conditions of this equivalency certificate and the applicable sections of the *TDG Regulations*, including the acceptance procedures of the transporter;

2) Classification

- a) The cylinders contained in the fiberboard overpack are considered as being included in Class 2.2, Non-flammable and Non-toxic Gases;

3) Means of Containment

- a) The dangerous goods are contained in a means of containment, which complies with the requirements of Part 5 of the *TDG Regulations*;
- b) The capacity of each cylinder is less than or equal to 1.41 L;
- c) A means of valve protection is not required;
- d) The cylinders are not damaged;
- e) Each cylinder is placed in an individual compartment inside the fiberboard overpack;
- f) The overpack is not opened during transport;

4) Marking

- a) The equivalency certificate number “**SU 11512**” is visibly and legibly marked on the external surface of the fiberboard overpack;

5) Documentation

- a) The shipping document that accompanies the dangerous goods contains the following information legibly and indelibly printed:
 - (i) “**Equivalency Certificate SU 11512**”, or
 - (ii) “**Certificat d’équivalence SU 11512**”.
